Past business / action items:

- Approval is requested for the meeting minutes from the May 4th, 2022 meeting as drafted - Approved.

## Agenda:

- Ongoing tracking [spreadsheet](#) of individual specs progressing through the [JESP](#)
  - Jakarta EE 10 Release Review - Specifications
    - PRs <https://github.com/jakartaee/specifications/pulls>
    - Release Plan  
<https://eclipse-ee4j.github.io/jakartaee-platform/jakartaee10/JakartaEE10ReleasePlan>
    - Wiki <https://github.com/eclipse-ee4j/jakartaee-platform/wiki/JakartaEE10>
  - Release Review for Jakarta Security 3.0 - Missing the TCK User Guide
    - Adding the TCK User Guide is a non-functional change in the same manner as a copyright license update, but it's on the TCK so updating it would presumably change the SHA and arguably justify needing the CI in the CCR to be rerun against it  
The ballot needs to be rerun with updated TCK which now includes the TCK User Guide
- Spec Summary on spec pages

- Template is [here](#)
- Specs adopt the same format as [Connectors 2.1](#)
- Add the heading “Details” after the Minimum Java Version
  - Template `_index.md` file to be update [lvar]

Proposal after the PRs are merged to a pass through the spec pages and cleanup where required [lvar + friends]

- Informational (no ballot at this time) - Proposal for a “Jakarta Data” project is under development  
Discussion regarding the Creation Review step of the JESP was discussed. Paul took the action to request clarification from the EMO.
